Plan to Plant
Another Tree

Will Add to the Value of Your Property

Your Home is not Complete unless you have planted
Fruits, Flowers and Shade Trees

Your love of the out-of-doors, your appreciation of the things that grow in the earth to gladden the eyes of all beholders, these teach you the importance of timing your planting efforts to conform to the laws of Nature. Do not wait until the sap is flowing through root and stem and branch—do not delay until the buds are breaking their winter shells and opening their faces to the spring sun. Plan and plant early during the season of germination, while the vital processes are at rest.

Apples

A small apple orchard will help to solve the high cost of living and keep your family in health. Apples are among the most important fruits we have, especially for the middle-west states.

	Each	Per 10	Per 100
XXXX	\$1.00	\$9.00	
XXX-5 ft.	.60	5.50	\$50.00
XX-4 ft.	.50	4.50	35.00
X-3 ft.	.35	3.25	25.00

SUMMER VARIETIES.—Early Harvest—yellow. Yellow Transparent—yellow, unusually good. Red June—red. Wealthy—red stripes, very productive. Maiden Blush—bright yellow, good.

FALL VARIETIES.—Jonathan—red, one of the best grown. Grimes Golden—yellow; fine in quality.

WINTER VARIETIES.—Delicious. Stayman—green with red stripes, very good. Mammoth Black Twig—dark red. Winesap—red. York Imperial—red, productive.

Grapes

The grape is one of our most profitable, most productive and most delicious of fruits. It does not demand a special or particular kind of trellis and will thrive and produce well if trained to posts, trellises, arbors or pergolas. If planted and cared for a grape vineyard will last at least fifty years.

Holsinger Brothers Nursery Rosedale Kansas

Holsinger Brothers Nursery Rosedale Kansas

Founded in 1874 by Maj. Frank Holsinger within one-half mile of the present location, 4½ miles from the Kansas City Union Station.

The office and nursery are located one mile southwest of Rosedale, Kan., and three miles northeast of Merriam on the Southwest Boulevard.

We invite you to visit our plant. The interurban from Kansas City to Merriam and Shawnee runs through our grounds and all trains stop at our office.

The Frisco Railroad runs through our property and all trains in and out of Kansas City on both the Frisco and M. K. & T. roads pass our place of business.

The Strang Line (interurban electric) from Kansas City to Olathe is a short distance to the south. Morrison Ridge is the nearest station to the nursery and is distant one mile south.

Our nursery comprises 153 acres of ground lying partly on the Turkey Creek Valley and extending one-half mile north to the hill tops. We have both bottom land and upland. Each variety of tree, shrub, perennial, or evergreen can be grown on just the kind of soil needed for its development.

Nursery stock is perishable and must be handled carefully and

quickly. Our facilities for handling the stock are of the best. We have all necessary machinery for digging, handling, packing and shipping nursery stock in the best possible manner and with the least possible delay.

We exercise the greatest care to keep our varieties pure and true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price.

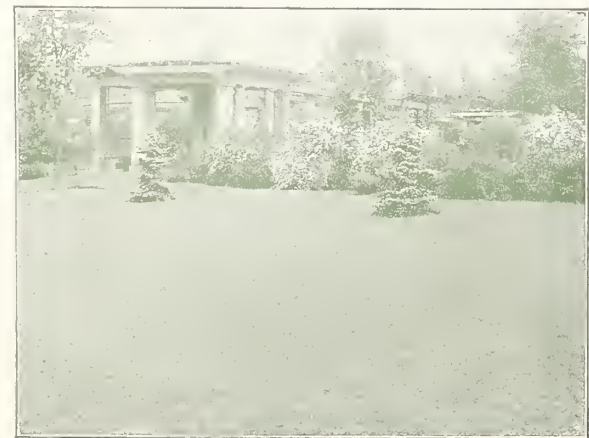

TERMS—Cash with the order or before stock is shipped. We do not prepay charges. All goods sent carriage charges collect. If sent by Parcel Post we will ship C. O. D. the amount of postage.

Remittances may be made by Post Office Money Order, Express Money Order, Bank Draft or Check.

Late in the season we sometimes run short of a variety or grade, in which case we occasionally substitute in a different grade of the same variety or a similar variety. If you do not wish us to substitute, please say so in ordering.

“Plan to Plant Another Tree”

A new national association has been organized under this slogan. The movement is sweeping the whole country. The Governors of all the states have been asked to proclaim a “Plan To Plant Another Tree” week. Many have done so. Be the first to suggest it in your town. It is a wonderful thing to be able to plant trees which will live for centuries after we are gone. “Plan To Plant Another Tree” somewhere, at your home, along the roadside, in the park or cemetery. “Plan To Plant Another Tree” somewhere.
